

The IEGBBR Mobile App of Biosafety, Biosecurity and Dual-Use Oversight

A reference tool for countries that aim to develop or strengthen their national biosafety, biosecurity or dual-use oversight. By providing 11 detailed examples of the national oversight systems of the IEGBBR member countries, the app can contribute to strengthening of national or regional compliance with international biosafety, biosecurity, and dual-use commitments.

Capacity Building in Biosafety, Biosecurity and Dual-Use Oversight

Compliance with International Commitments

Note-Taking:

Notes can be taken and saved as .pdf for export; includes a voice-to-text feature

Filter Countries:

Select any or all of the 11 IEGBBR members' content

Highlighted Search:

Search and contrast desired aspects of the oversight

Export:

To export desired content in pdf format

The IEGBBR Mobile App of Biosafety, Biosecurity and Dual-Use Oversight

Compendium of International Biosafety and Biosecurity Oversight Systems

- ❖ **Regulatory Frameworks in the IEGBBR Member Countries and Compliance**
- ❖ **Processes, Procedures, and Record Management**
- ❖ **Risk Assessment Requirements**
- ❖ **Accountability & Personnel Requirements, Training, Outreach & Awareness**

About the IEGBBR: The IEGBBR coordinates and leads concurrent projects related to the international alignment, strengthening, and advancement of biosafety and biosecurity regulatory oversight systems by sharing expertise and lessons learned from the perspectives of our established regulatory regimes.

To that end, the IEGBBR develops reference tools and materials that are relevant to all countries. The universal nature of the IEGBBR's reference tools and materials can benefit the international community broadly, regardless of the level of development or available resources.

For more information about the IEGBBR, consult <http://www.iegbbbr.org/>.

Review of Oversight of Dual Use in Life Sciences

- ① **Export Controls for Dual-Use Goods and Information**
 - ❖ **International Agreements, Conventions and Initiatives**
 - ❖ **Statutes and Regulations and the Domestic Implementation of the Biological and Toxin Weapons Convention**
 - ❖ **Dual-Use-Related Program Requirements, Tools and Resources**
- ② **National Biosafety and Biosecurity Oversight Measures Related to Dual-Use**
 - ❖ **Statutes and Regulations, Regulatory Dual-Use Oversight Measures and Compliance**
 - ❖ **Other Oversight Approaches (Institutional, Funding Allocation and Publication)**
 - ❖ **Dual-Use Risk-Benefit Assessment, Risk Mitigation and Processes Related to Ethical and Societal Implications**
 - ❖ **Training, Outreach and Raising Awareness**
